New EU Youth Participation Project Launched: KEY-YOU

Behind the project acronym KEY-YOU lies the full title: "Creative Knowledge & Diversity-oriented Engagement for Youth UNLOCKED Participation." Our mission is to take complex decision-making processes both at the local and EU levels and translate them into easily understandable, engaging formats. To achieve this and bring these political processes to life, we are relying on an innovative, game-based learning approach.

What We Are Planning:

As part of the project, we will be developing several key resources, including:

- A Digital Civic Education Escape Room: Making political participation tangible and engaging through puzzles and interactive scenarios.
- A Practical Flashcard Set: Specifically designed for offline use in youth clubs and rural regions without internet access.
- Hands-on Training and Manuals: Providing youth work professionals with concrete methods and tools to support inclusive youth work.

Getting Started

The KEY-YOU project has officially launched following a successful kick-off meeting in Germany, led by HochVier e.V. The gathering brought together five organizations from four different countries.

Throughout May, thinktanks are being held across all our European partner organizations to collaboratively identify local needs and gather input for youth participation.
